

SENSITIVE

FISH LARGE BREED

Complete diet for large breed adult dogs
from 1 year of age over 25 kg

Appetitt is a functional dog food enriched with active ingredients derived from Norwegian nature. Each product is specially adapted to the different nutritional needs of all breeds, so you can always find a food that is tailored exactly to your dog's requirements.

Sensitive Fish Large Breed is formulated for sensitive large breed dogs. The food is rich in highly digestible hydrolysed protein from fish. This is a single protein dog food, contains only proteins from marine sources, making it a good option for dogs that are sensitive to chicken or other animal proteins.

With the exception of rice, the food is grain free and high in hydrolysed proteins. Thus, the food is low in ingredients that can lead to intolerance and allergies.

Antarctic krill supports your dog's skin, coat and joints with the essential omega-3 fatty acids, EPA and DHA in the form of phospholipids. Contains natural glucosamine and chondroitin from fish for joints and bones. Natural vitamin E and rosemary, for skin, coat, joints and your dog's overall health.

Fructo-oligosaccharides (FOS) from vegetable fibres and mannan-oligosaccharides (MOS) for your dog's gastrointestinal health. Beta-glucans from yeast for your dog's overall health.

Composition

Pea starch, dried marine protein from fish (22 %), rice, hydrolysed animal protein from salmon (14 %), animal fat, potato starch, dried Antarctic krill (*Euphausia superba*), calcium carbonate, dried beet pulp, fish oil, monocalcium phosphate, lignocelluloses, fructo-oligosaccharides (FOS), mannan-oligosaccharides (MOS), potassium carbonate, beta-glucans from yeast, rosemary.

Feeding guide

Appetitt Sensitive Fish Large Breed meets the requirements of large breed adult dogs from 1 year of age and with a normal level of activity.

The feeding guide gives the average amount of daily feed related to body weight. The portion may vary +/- 20 % depending on activity level. Your dog should always have access to fresh drinking water. Store in a dry and cool place.

Functional substances

Antioxidants: Vitamin E (α -tocopherol)	200 mg/kg
FOS (fructo-oligosaccharides)	0.2 %
MOS (mannan-oligosaccharides)	0.15 %
Beta-glucans	0.04 %

Protein quality

Percentage of total dietary protein supplied by animal and/or marine sources	86 %
Hydrolysed protein	10 %
Hydrolysed protein/Total protein	39 %

ENERGY CONTENT
