

MOBILITY

FISH

Complete feed formulated for adult dogs with need of extra support for joints and mobility. It has a high content of the essential omega-3 fatty acids EPA and DHA, which are important for joints and mobility. A unique trace mineral complex provides vital nutrients for bone and joint support and these minerals may also contribute positively to healthy paws and a shiny coat. Crab shell meal from Norwegian brown and king crab contributes with minerals and palatability. Fish raw materials contribute with natural glucosamine and chondroitin for joints and bones.

The food is composed of high-quality marine protein raw materials with high digestibility. In addition, the food contains hydrolysed fish protein raw materials. The fish protein ingredients are sourced from the North Atlantic area outside Norway, ensuring a short journey from catch to bowl. The food contains only animal protein ingredients from marine sources. Antarctic krill, provides highly absorbable omega-3 (EPA/DHA), and supplies the feed with astaxanthin and choline. Choline is an essential nutrient for muscle movement and nerve functions. Astaxanthin is an efficient antioxidant that protects the cells in the body. The gut health is supported by a combination of probiotics, mannan-oligosaccharides (MOS) derived from Norwegian spruce, fructo-oligosaccharides (FOS) as a prebiotic source and postbiotics. The natural antioxidants vitamin E and rosemary, along with beta-glucan, may contribute to the dog's overall health.

SMALL/
MEDIUM
KIBBLE

- ✓ Advanced mineral technology to support bone health
- ✓ Carnitine to aid energy production and fat metabolism
- ✓ Microbiota support through probiotics, postbiotics, FOS, and MOS for a balanced gut
- ✓ Beta-glucans to help strengthen the immune system
- ✓ High-quality marine and hydrolysed fish protein with high digestibility

Composition Rice, dried animal protein from fish (21 %), pea starch, animal fat from poultry, potato starch, hydrolysed marine protein from fish (6 %), dried krill (*Euphausia superba*) (5 %), beet fibre, fish oil from white fish, lignocellulose, crab shell meal from Norwegian brown- and king crab, monocalcium phosphate, mannan-oligosaccharides from Norwegian spruce (MOS) (0.4 %), potassium carbonate, fructo-oligosaccharides (FOS), fermented inactivated yeast (*Saccharomyces cerevisiae*), sodium chloride, beta-glucan.

Feeding guide Suitable for dogs of all sizes and breeds from 1 year of age. The table indicates daily feed amounts in grams per day related to the dog's weight. Feed amounts can vary by +/- 20 % depending on the dog's activity level. The dog should always have free access to fresh drinking water. Store in a dry and cool place.

Functional ingredients

Antioxidants: Vitamin E (tocopherol)	492 mg/kg
Probiotics: (<i>Bacillus velezensis</i> DSM 15544 (4b1820))	1.5 x 10 ⁹ CFU/kg
Postbiotics:	0.4 %
Mannan-oligosaccharides (MOS) from Norwegian Spruce:	0.4 %
Carnitine:	500 mg/kg
Fructo-oligosaccharides (FOS):	0.2 %
Beta-glucans:	0.6 %

Protein quality

Proportion of marine raw materials in total diet	42.7 %
Percentage of total dietary protein supplied by marine sources	65 %
Hydrolysed protein	6.2 %
Hydrolysed protein/Total protein	25 %
